

REAL TIME BUS INFORMATION

Knowing when the next bus is due at a bus stop can save you getting cold and wet, and the good news is that there are really good apps that can help you track when the bus is on its way.

SWINDON BUS

The Swindon Bus app has a range of tools including journey planning, tracking your bus on a map, viewing live times, buying tickets, as well as being able to customise the app to show all of your favourites, stops, trips and tickets .

By selecting a bus, you can see where it is on its route.

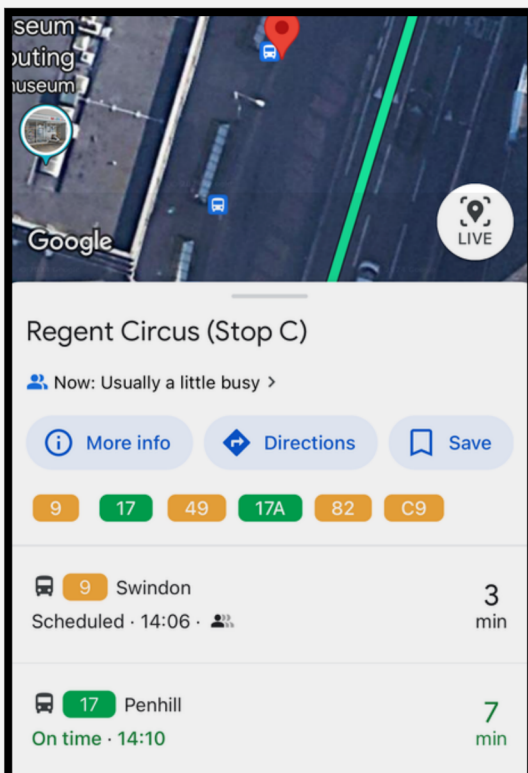

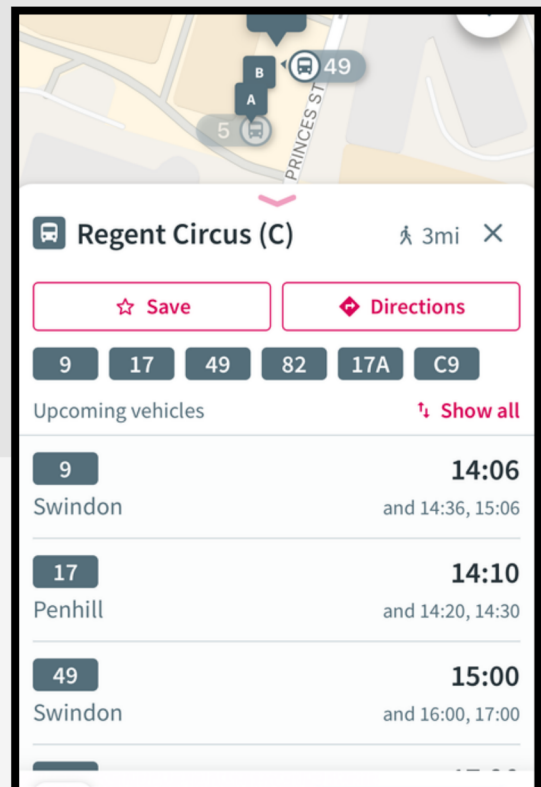

REAL TIME BUS INFORMATION

If you have the choice of bus companies serving your nearest stop, instead of two separate apps, there are ways of having them both together...

UK BUS CHECKER

The UK Bus checker app allows you to plan journeys, see real-time bus information and buy mobile tickets all in one place, for buses right across Great Britain.

Handy if you get out and about, but there are a lot of ads on the app

GOOGLE MAPS

Many people have Google maps on their phone and if you zoom into a map, you can see bus stops as little blue icons. By clicking these, you can get information about the buses that use the stop and when the next one is due.
